

All units are supplied with the latest level of firmware. We do not supply firmware upgrades automatically. If units are operating and delivering the required information or control we recommend running on the firmware level as installed. Should you require any clarification or you are experiencing issues please make contact at **technical@ipdu.co.uk** advising serial number/unit description and issue and we will be pleased to make contact and discuss further.

To ensure you obtain the correct information if you require a copy of the OEM manual please make contact on **technical@ipdu.co.uk** advising serial number/unit description and we will be pleased to forward you the relevant documentation.

For information on software versions please see 'IPT ACU SOFTWARE VERSIONS' in the OTHER/MISC section of our website at **www.ipdu.co.uk/technical-info/**.
